What were the teaching assistant's or writing intern's strengths? Weaknesses?

Jeff is active, inspiring and cheerful.

Jeff was very helpful. He responded through emails. He was nice and understood students who had different backgrounds.

Jeff was awesome! Incredibly helpful when it came to talking about papers with you, really wanted to see all of his students succeed.

Jeff was a great TA. He facilitated discussion without dominating it at all, and he was very helpful for the more ambiguous assignments for the course.

What were the teaching assistant's or writing intern's strengths? Weaknesses?

The discussion sessions were always interesting and lively, and Jeff was tremendously helpful outside of class as well. (He even dug up an archive for me that I didn't think existed!) He helped me very effectively (and patiently) with my research paper.
